

ELITE STEM COACHING. REINVESTING IN OUR COMMUNITY.

Clovrr STEM Learning — Official Community Education Partner

WHY PASSIVE TUTORING FAILS

Standard tutoring chains rely on quiet, repetitive worksheet drills where students memorize procedures without understanding the underlying logic.

Clovrr builds real academic authority. We pair K–10 students with top-1% near-peer STEM role models who teach active Socratic problem-solving, advanced test stamina, and competitive mathematical logic.

EXCLUSIVE COMMUNITY MEMBER PERK

Through our official partnership with your organization, your family receives:

- **10% OFF ALL TUITION:** Apply your community promo code at checkout to instantly reduce your hourly tuition.
 - **15% DONATED TO YOUR COMMUNITY:** Every month your child is enrolled, Clovrr donates 15% of your tuition directly back to fund your organization's youth programs and community facilities.
