Turnkey Academic Enrichment & Recurring Community Fundraising

I. THE EXECUTIVE SUMMARY

Clovrr is an elite, near-peer STEM academy serving K–10 students across Mathematics, Physics, Biology, and Chemistry. We partner with select religious centers, cultural associations, and youth booster clubs to provide high-level academic mentorship while operating a **Corporate Social Responsibility (CSR) Revenue-Share Engine** that continuously funds your organization's initiatives.

- **Zero Financial Cost:** There are no fees, setup costs, or administrative burdens for your organization.
 - **Zero Operational Overhead:** Clovrr handles 100% of student intake, scheduling, curriculum delivery, and parent reporting.
 - **100% Automated Fundraising:** Every student enrolled from your community generates a direct cash donation back to your organization every single month.
-

II. THE PARTNERSHIP MODEL (10% / 15% SPLIT)

1. The Community Member Perk (10% Parent Discount)

Families affiliated with your organization receive a dedicated partner promo code granting them **10% off all Clovrr tuition** across both Small-Group Cohorts and 1:1 Executive Coaching.

2. The Recurring CSR Donation (15% Revenue Share)

For every student who registers using your community code, Clovrr donates **15% of their gross monthly tuition** directly to your building fund, youth scholarship fund, or operating budget.
